4. Program: Erin Snodgrass, Gaines County Extension Agent

[Erin discussed with the group the various programs offered by the Gaines County Extension Agency. There were programs where they come into the school and work with students and teachers to provide learning activities for students. She discussed the various programs that are offered after school through the 4-H program that students can join. The 4-H program offers students the chance to work with animals but also gives students the opportunity to compete in various competitions. She stated that there is a small fee to join 4-H, but many of the programs that the Extension agency offers for students do not cost anything.](#)
